Flush Edge-to-Edge Design

FlatFrog's InGlass supports simple and slim integration with a completely flush surface enabling true edge-to-edge industrial designs with no bezel.

Unmatched Optical Clarity

InGlass™ Touch enables a perfect viewing experience since it has no sensor grid obstructing the visual clarity, while also using highly transmissive anti-fingerprint treated glass.

Touch, Pen and Pressure Support

InGlass™ Touch offers industry-leading multi-touch performance, ensuring a perfect Windows or Android user interface experience. The technology also has the unique ability to sense more than 1,000 levels of pressure. This enables pressure sensitive drawing and writing as well as new application gestures for music, gaming and smart user interfaces.
