

Optika Business Collaboration Series

42 Executive Flex Huddle Room Bundle

October 2016

Unified Collaboration Simplified

Many IT teams are confronted with the task of taking a holistic approach to communications, creating roadmaps that integrate and unify multiple communication solutions across their user's changing needs and preferred devices. Understanding how to optimize the use of smartphones, tablets, and desktops across the various locations users collaborate from – “the road”, home offices, enterprise workspaces, and conference rooms is a challenge in-and-of itself. This challenge is compounded as the supporting communications technology and solutions are shifting rapidly.

Imagine - Walk into a room and instantly start a collaboration session, complete with shared content and flawless sound and video - all nicely packaged into a perfect bundle. The Business Collaboration Series from Optika Display makes this possible. The industry has been waiting for an integrated unified collaboration solution for today's changing environment.

With the Optika Display 42 Huddle Room, you can experience the future of collaboration!

Bring your Collaboration to life with Optika Display Executive Flex
